

Environmental Technology & Science Journal

Volume 17 Number 1

June 2026

Aim and Scope

The Environmental Technology and Science Journal (ETSJ) is devoted to the publication of papers which advance knowledge of practical and theoretical issues that daily plague our society. The aim of the journal is to provide an avenue for the dissemination of academic research findings from various disciplines of the environment, engineering, pure and applied sciences, arts and social sciences, which have materials that emphasize on environmental issues.

ETSJ Policy

Environmental Technology and Science Journal is a multidisciplinary Journal that is devoted to the publication of scholarly articles with the sole aim of becoming a flagship in built environment research internationally. Based on this, the editorial policy/implementation plan of the Editorial Committee Members is provided below as the basis for editorial decisions in order to improve the quality and visibility of the Journal.

1. The focus of the journal is to provide an avenue for the dissemination of academic research findings from various disciplines of the environment, engineering, pure and applied sciences, arts and social sciences which have materials that emphasize on environmental issues. To this end, all published papers in ETSJ are expected to be aligned with the focus of the Journal.
2. Previously published articles shall not be accepted. Manuscripts should not be under consideration elsewhere, hence, they shall be original. The Author/s should check the manuscript for any possible plagiarism using any software such as TurnItIn or any other software before submitting the manuscripts to ETSJ.
3. Any manuscript submitted to ETSJ after initial editorial review (for scope, contents and subjecting it to Turnitin software) shall be blind peer reviewed by two reviewers who in the opinion of the Editorial Secretary and Managing Editor are experts in the area of the manuscript submitted. In the event of a tie, a third reviewer shall be sought.
4. Both empirical and desktop manuscripts shall be accepted for review as long as they reflect the focus of ETSJ. Desktop manuscripts are expected to be well synthesised and arguments are to be presented logically.
5. The reports of the reviewed manuscripts are checked by the Editorial Secretary in order to ensure the relevance and quality of the reviews before sending them to the contributors.
6. The Managing Editor and the Editorial Secretary are to ensure that reviewers' comments are substantially complied with by the contributors when final accepted manuscripts are submitted. Contributors are to state in the prescribed form, how the corrections pointed out are addressed. Where a contributor disagrees with any of the reviewers, rebuttal is allowed which shall be reviewed by the Managing Editor and the Editorial Secretary.
7. The Editorial Secretary shall be duly informed of the addition or removal of contributor/s when any manuscript has been accepted for publication. Reason/s must be given to justify the addition or removal.
8. The Editorial Board shall meet twice in a year, that is, before the publication of each issue in June and December. Meetings shall also be called at other times.
9. Efforts shall be made to review manuscripts within four (4) weeks, however, the review process may take longer than four (4) weeks as there may be the need to re-assign the manuscripts to other reviewers.
10. ETSJ is open access that publishes both hard copy and online versions (<https://journal.futminna.edu.ng/index.php/etsj> and <https://www.ajol.info/index.php/etsj>) in June and December of every year.

11. Where the number of articles accepted is more than what could be published in any edition (in June or December), the accepted articles will be split into two (2) as issues 1 and 2 of that particular edition.
12. Where the number of articles accepted is not up to the required number of articles to be published, only the online version shall be published, and this shall be updated until the required number is obtained when the hard copy version shall be published.
13. The School of Environmental Technology, Federal University of Technology, Minna is the owner of ETSJ and therefore, determines the tenure of each Board Member.

Guide for Authors

Please read the guidelines and follow the instructions carefully; doing so will ensure that the publication of your manuscript is as rapid and efficient as possible. The Editorial Board reserves the right to return manuscripts without review that are not prepared in accordance with these guidelines.

1. Manuscripts should not be more than 15 pages of A4 paper size (including abstracts, tables, figures, references and appendices) typed in double line spacing and font size 12 points Times New Roman style. However, abstract, tables, figures and reference list are to be typed in single line spacing. Additional fee of two thousand (₦2000) Naira will be charged for every additional page in excess of 15 pages.
2. Each paper must be compiled in one column; all text should be left and right justified. The page settings to be 25cm (1 inch) each for the top, bottom, left and right margins of an A4 paper. Decimal numbering of all sections of the article is recommended (with the exception of the reference and acknowledgement section).
3. To ensure anonymity in the peer reviewing process, articles must be structured in such a way that the title of the paper, authors' names, address, and affiliation are written on the first page, followed by abstract and the body of the paper in that order.
4. Each article should contain an abstract of not more than 300 words. The abstract should be in the following format: Introduction; purpose of the study; method/s/methodology; major results; general conclusion; recommendation and implication of findings to practice.
5. Each article should contain between 5 to 7 key words (avoid use of phrases)
6. The body of the manuscript should be interrogated along the following format:
Introduction: It is expected that the following three (3) issues shall be brought to bear in this section. One, putting the study in context in terms of background; two, stating in clear terms the problem/s identified and three, highlighting the research gap in the subject area.

Literature Review: This has to do with synthesising the current and related studies in line with the extent of work carried out in that area of study.

Methodology/materials and methods: This should be explicit in order to make replication easier.

Results and Discussion: Apart from interpreting the results, robust discussion in relation to relevant literature has to be done in order to bring to the fore areas of convergence or divergence.

Conclusion: It is expected that based on the results obtained, inference has to be drawn which will form the basis for the recommendations/suggestions/way forward that will be espoused.

Reference list: The acceptable referencing style is the American Psychological Association (APA). The in-text citations should be as shown:

Parenthetical citations

One author (Jimoh, 2012)

Two authors (Ogunbode & Jimoh, 2020)

Three or more authors (Jimoh *et al.*, 2017)

Narrative citations

Jimoh (2012)

Ogunbode and Jimoh (2020)

Jimoh *et al.* (2017)

In a related development, the reference list should be as shown below:

7. Use the SI (*Systeme Internationale*) units and symbols, while Unusual Characters and symbols should be explained in a list of nomenclatures
8. In cases where equations are part of the manuscript, Equation Editor should be used.
9. No indentation but paragraphs should be separated by a blank line. United Kingdom (UK) English should be used in the manuscript.
10. Figures, Tables and Graphs are to be placed at the appropriate place in the manuscript and not at the end of the paper
11. Acknowledgement is optional, except for studies funded through research grant awards.
12. Author should avoid using header, footer and special page break within the manuscript.
13. The manuscript is to be sent via electronic mean to the journal email address: etsj@futminna.edu.ng for a blind peer review, which under normal circumstance will not exceed 4 weeks, after which the status of the article will be communicated to the Author(s)
14. Author(s) with positive review will be asked to effect corrections or revisions after which the camera-ready manuscript is to be emailed to etsj@futminna.edu.ng and to be accompanied by evidence of payment of publication fee.
15. The Editorial board is not responsible for the information or views expressed by the Author(s)
16. The copyright of this journal belongs exclusively to the Editorial Board of Environmental Technology and Science Journal. No part of the publication may be reproduced, stored in a retrieval system or transmitted in any form or by any means, electronic, mechanical, photocopying, recording or otherwise without prior permission of the School of Environmental Technology, Federal University of Technology, Minna-Nigeria or a licence permitting restricted copying.

Frequency of Publication

The journal is published twice a year in June and December

Subscription Details

The 2026 subscription rates for hardcopies of the journal including postage are:

Individual within Nigeria: ₦5,500 per copy and ₦3,000 for postage (depending on the destination)

Individual outside Nigeria including postage \$100

Institution within Nigeria: ₦8,000 per copy and ₦2,000 for postage (depending on the destination)

Institution outside Nigeria including postage: \$200

Editorial

You are welcome to volume 17, number 1, June 2026 edition of Environmental Technology and Science Journal (ETSJ). In this edition, there are 22 articles that cut across the built environment and science research domains.

The efforts of our Reviewers are commendable! We are grateful to our contributors for considering and using ETSJ as a platform for disseminating their research outputs. Please, keep the manuscripts coming!

Past and current editions of the Journal can be accessed and downloaded at these web addresses:

<https://journal.futminna.edu.ng/index.php/etsj> and <https://www.ajol.info/index.php/etsj>

Let us do it again, peace!

R. A. Jimoh
Managing Editor

Contents

- 1 – 8 Perceived Influence of Building Design on Maintenance of Tetfund
Sponsored Buildings in Tertiary Institutions in Benue State
Sen G.I. & Varvar E.E.
- 9 – 16 Evaluation of Prediction Methods for Elevation Determination Using SRTM
Digital Elevation Model in Akure, Ondo State
Adeboye A.T., Ilesanmi K.S. & Adetoro P.T.
- 17 – 36 Mechanical, Durability and Fire Performance of Lightweight Foamed
Concrete Incorporating Rice Husk Ash as Cement Substitute
Agboola S.A.
- 37 – 49 Assessment of the Potential and Impact of Solar Energy Utilization for
Sustainable Land-Use Development in Sokoto State
Morenikeji G. & Olukolajo M.A.
- 50 – 56 Potsherd Pavements: The Preservation of the Fragmented Heritage of Pre-
Colonial Yorubaland Development
Adhuze, O. & Adeyemo A.
- 57 – 65 Exploring Geothermal and Hydrocarbon Potential with Aeromagnetic
Data in Guri and Environs in Chad Basin
Ezekiel K., Garba M. A., Musa H., Jonathan B., Garba M. A. & Dawa S.
A.
- 66 – 71 Evaluation and Systematic Desktop Review Protocol for Land
Administration in Niger State, Nigeria
Gbedu A.M., Hassan A.S-I., Olaniyi A.M. & Adeniyi G.
- 72 – 79 Macroeconomic Dynamics and Property Investment Returns: Evidence
from Time Series Econometrics
Nwosu A.E. & Ige V.O.
- 80 – 89 Assessment of Heavy Metal Concentrations and Associated Health Risks
in Nigeria-Branded and Marketed Sanitary Products Using Deterministic,
Multivariate and Probabilistic Approaches
Oladapo F.O.
- 90 – 98 Bus Shuttle Service Operations and Students' Satisfaction at the Federal
University of Technology, Minna
Martins V.I., Santali B.A., Idowu O.O., Musa A.W. & Akintoye W.O.
- 99 – 111 Settlers' Satisfaction with Infrastructure Provision in Molo Kivulini
Settlement Schemes, Kenya
Ombaba M. & Gateri C.
- 112 – 120 Compressive Strength of Metakaolin Geopolymer Concrete Incorporating Palm
Kernel Shell as Lightweight Coarse Aggregate
Hanafi A.A., Alao T.O. & Olawuyi B.J.

- 121 – 129 Examining the Relationship Between Therapeutic Architectural Features and Wellbeing Indicators Among Paediatric Patients in Selected Hospitals in Kaduna State
Obaje S.A., Obaje J.A., Haruna P.B. & Eze J.C.
- 130 – 138 Aeromagnetic-Based Lithostructural Interpretation of the Ilesa Basement Complex, Southwestern Nigeria
Ogunkoya C.O., Olajide T.A., Ganiyu J.O. & Oladejo O.P.
- 139 – 149 Effect of Nano-Silica on Sodium Hydroxide Activated Blended Millet Husk Ash-Calcium Carbide Residue Concrete
Abass A.I. & Ogunbode E.B.
- 150 – 158 Assessment of Accessibility for Persons with Disabilities in Nasarawa State Tertiary Institutions
George A. & Medayese S.O.
- 159 – 173 Mixture Design Optimization of Millet Husk Ash, Calcium Carbide Residue, and Nano Silica for Sustainable Concrete
Adelakun K. & Ogunbode E.B.
- 174 – 190 Development Pattern of Minna Traditional Core Area and its Vulnerability to Fire Hazards
Martins V.I., Idowu O.O., Santali B.A., Musa A.W. & Dabul S.
- 191 – 200 Evaluation of Rice Husk Biochar Modified with Magnesium Oxide in Adsorbing Heavy Metals from Tannery Wastewater
Ugama G.N., Uzoije A.P., Mgbeahuruike L.U., Enweruzoh D.U. & Cosmos U.
- 201 – 207 Molecular Detection of Selected Extended-Spectrum Beta-Lactamase Resistant Genes in Escherichia coli Isolated from Cancer Patients with Urinary Tract Infections in Abuja
Ibrahim T., Ezimorah O.E. & Odoma E.A.
- 208 – 216 Spatial Assessment of Soil Erosion Variability in Kwara State, Nigeria Using RUSLE and GIS
Ipadeola O.A., Adeniyi F.E., Olatunde G., Yusuf A., Babalola A. & Gbadamosi A.A.
- 217 – 225 Detection and Mapping of Slow-moving Landslides with Pleiades-1 Data
Eyo E., Gbedu A., Faruna S., Bako M. & Adewale O.
